HOG MARKET HIGHER

Unusual Activity in Business Outlook Better.

HIGHEST PRICE WAS \$5.00

Calves \$4.50 -- Stockers \$3.75 -- Market Steady

Hogs were five cents higher yesterlay. A course of professional instruction All day the buying was active and the the week. Receipts were comparatively heavy and the bulk of the sales was of a fair quality.

Cattle were steady and the number re ceived were extremely few. Calves brought \$1.50 and stockers sold at \$3.75. There is a little better outlook for both the cattle and the hog market then there has been in the last few days and it is the hope of the buyers to be able to bid 11%; 18-30, high water prices next week. The Wichita over, I' market is steadily forging to the front and is gaining a widespread reputation. Breathest Bacon-Niagura, 8 lbs. and Everything is gradually and surely working to that end, which is not many years offs. It was only a few years since that this market was scarcely more than a place where local stockmen and farmers in the surrounding country sold what little stock they had. Big shipments were sent to Kennas City St. Louis or Chi.

Side Mears dry sait-Extra short clears. and is gaining a widespread reputation. sent to Kanmas Chy, St. Louis or Chicago. Now the condition has changed. Stockmen from all over Kansas, Oklama and Indian Territory thip their stock to Wichita. As time roes on and the benefits and advantages of this mar-

ket are spread throughout the stock-raising country there is a still greater rush

to the Peccless Princess. Ahead there

is a bright and promising future. Time

will tell and the phenomenal growth of

Wichita and its market will be astound-

ing to the rest of the world,

REVIEW TRADE

Low Temperature, Heavy Rains and Bad Roads Impede

COLLECTIONS DELAYED

Agricultural Implement Men Have Done Well

New York, April L-R. G. Dun and company's weekly review of trade tomor-

Much deferred eastern business was transacted during the last few days and some sections report satisfactory results. yet normal and on the whole the season's Address, GEORGE T. DEXTER, Super-intendent of Demestic Agencies, 22 Nassau St., New York City, N. Y.

Yet normal and on the whole the season's trade thus far compares unfavorably with last year's volume.

Manufacturers returns are conflicting, iron and steel plants gaining ground, foot-wear exhibiting the natural reaction from an unprecedenting production in 1903, while textile mills have much idle machinery and little forward business to encourage operations. Lumber and building materials are in better demand, although floods at the west and labor troubles at the east retarded structural work to some extent.

Transportation is still interrupted by scarcity of cars, although in the coke way earnings thus far reported for March are but 1.2 per cent smaller than last changed, better weather condition at sompoints being offset by less favorable news from other regions, and the price strustion is extremely irregular. Further proin the Iron and steel industry.

Increased activity and somewhat firmer quotations in western hide markets resuited from more interest on the part of the tunner, one concern alone taking 75,000 hides.

Commercial failure this week in the United States are 208 against 126 last week week. 21 the preceding week and 18 last Sear.

BRADSTREET'S VIEW. row will say:

Low temperature and heavy rains, bad \$175,682,768. and floods, have checked spring trade, delaping collections, discouraged easter demand and closed a three months period of rather backward business in the north, east and west. There are some Fresh Boef and Mutten-Cows and turnl implement men have done probably the best season's trade on record, the railways are probably the best season's trade on record, the railways are gradually winning out of their transportation The western clothing and

shoe trades have done very well and the feeling in the iron and steel trade is a more cheerful one than seemed possible a short time ago. While nearly all signs country's trade than in 1903, feeling is still general that the crop outlook stimulated by high prices, favors large yields and warm, dry weather is easerly awaited as furnishing a true test of the real trade

Among other metals, copper is notably ported next to the largest ever recorded.
